

DOES SOLAR MAKE SENSE FOR ME?

YES! SOLAR PROVIDES:

- + Property value increase
- + Security from extreme weather and outages
- + Comfort from using your HVAC how you like

SOLAR FOR THE WIN

Freedom Solar Power was selected to install solar in Season 5 of HGTV's "Rock the Block", helping celebrity home renovation duo, Lyndsay Lamb & Leslie Davis, win the competition by achieving the highest home valuation!

“Having batteries here, they've set themselves up for success – if there's a blackout, they've got resiliency, and they'll be fine. Everyone will be out of power and that house will have the lights on.”

JONATHAN SCOTT
HGTV's "Rock the Block" Judge
& Host of "Property Brothers"

“Sometime the value is in the things you can't see, and the solar panels were the best move we could have made. An elevator or an extra bedroom—sure all of those things in our competitors' homes added value—but Florida allows you to sell solar energy back to the state. We knew this would play big with the appraisers. Giving buyers an income source on their home was untouchable to anything anyone else put into their homes. It was our power move from the beginning.”

LESLIE DAVIS
HGTV "Rock the Block" Season 5 Winner

LYNDSAY & LESLIE'S HOME SOLAR DESIGN

- ✓ **21 Mission Solar PV Panels**
- ✓ **3 Tesla Powerwall backup batteries,** to keep the condo powered for 72 hours or longer in case of a grid outage due to extreme weather.
- ✓ **1 Chargepoint Home Electric Vehicle charger** to fuel their cars with solar power.
